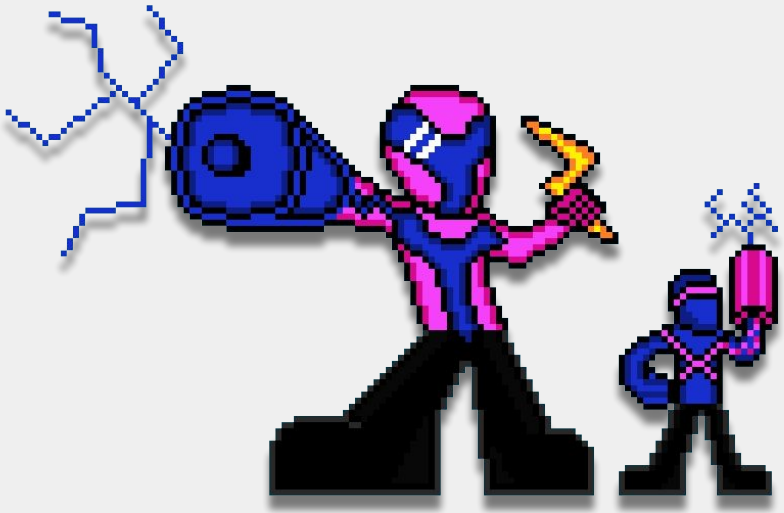
ABOUT YOUR VERSION:

YOUR VERSION OF THIS GAME IS FOR THE **NINTENDO ENTERTAINMENT SYSTEM**. WHAT MAKES YOUR VERSION SPECIAL? FOR STARTERS, THIS IS THE ORIGINAL VERSION OF THE GAME, AND ALL OTHER PORTS HAVE THIS VERSION ENCODED INTO THEM. YOUR VERSION IS A .NES ROM FILE. THIS MEANS THAT YOU'LL NEED TO PLAY IT WITH EITHER AN EMULATOR OR A FLASHCART. THIS GAME WILL WORK WITH ALMOST EVERY EMULATOR YOU MAY WISH, HOWEVER IF YOU'RE HAVING TROUBLE CHOOSING, HERE ARE SOME RECOMMENDED WAYS TO PLAY.



#1 RECOMMENDED!

MESEN (EMULATOR)

MESEN is by far the best NES emulator, and it includes helpful recommended features such as "Rewind".

FCEUX (EMULATOR)

FCEUX is a great emulator that runs on even the most dinosaur computers, and it's confirmed to work very well with this game.

QUICKNES (RETROARCH CORE)

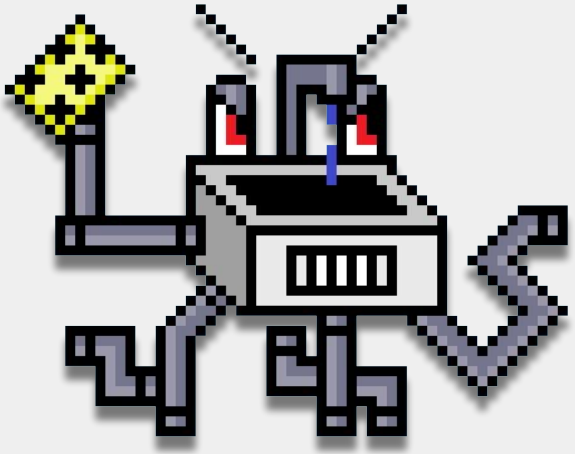
If you have RetroArch on something like a Raspberry Pi, this is the core that will give you the best results.

EVERDRIVE N8 (FLASHCART)

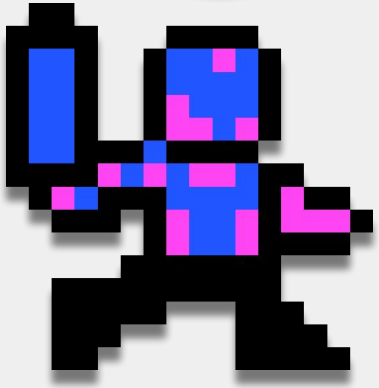
The Everdrive N8 allows you to play on a real NES! Which is cool and all, but perhaps impractical, due to the artstyle not working very well on an old CRT television.

STORY

THE EVIL *SINKAUTRO* HAS FILLED THE LAND WITH EVIL HOLES, SCREAMING SKULLS, INVISIBLE WALLS AND POISON BLOOD! ARE YOU PREPARED TO JUMP OFF OF SWINGING CHAINS, AND OVER BURNING LAVA? DO YOU REALLY THINK YOU CAN TRAVERSE NEFARIOUS NIGHTFALLS, ATHLETIC SKIES, LAYER-CAKE LANDS, GRUESOME GRAVEYARDS AND DANGEROUS DUNGEONS, AND STILL HAVE ENOUGH ENERGY TO ZAP SINKLINGS, AND DEFEAT THE VILLAINOUS SINKAUTRO? IF YOU'RE UP FOR THE CHALLENGE, *CHAD*, THEN GO AHEAD AND SHOCK THE WORLD!



MOVESET



CHAD, HOW ARE YOU GOING TO DEFEAT SINKAUTRO IF YOU DON'T KNOW HOW TO MOVE?
